✓ SAVE MONEY

Carpenter Co. Rely® Flat Proofing Polymer is an investment that quickly pays for itself. You save expensive flat repair and service charges, eliminate costly down time due to flats, improve the life of the tire, increase job productivity and eliminate interrupted work schedules.

✓ IMPROVE ON THE JOB SAFETY

Carpenter Co. Rely® Flat Proofing Polymer eliminates sudden loss of pressure, adds a lower center of gravity to your equipment to reduce roll-over possibilities and improves traction.

✓ EXTEND THE LIFE OF YOUR TIRES

Improperly inflated tires wear out prematurely due to over or under inflation. Tires filled with Rely® are pressurized to manufacturers' specifications and stay that way for the life of the tire. They can even be retreaded if the casing is in good condition.*
 (*See dealer for details)

✓ REDUCE DOWN TIME

It's your worst nightmare. Your entire crew, sitting around, doing nothing, waiting for a flat tire to be repaired. Carpenter Co. Rely® Flat Proofing Polymer keeps your vehicles and your crew working. You'll never, ever be stopped by a flat tire again.

✓ GET RID OF FLATS FOR GOOD

Tires filled with the Carpenter Co. Rely® Flat Proofing Polymer are virtually indestructible. Rollover whatever hazard gets in your way with tires you can Rely® on.
